NEW!

ProVu™ Video Laryngoscope

Make Your First Attempt Your Only Attempt

• LATEX FREE • • DISPOSABLE •

- Designed to achieve first time success in routine and difficult intubations
- Focal length, field of view and illumination field optimized for an improved view of the glottic anatomy
- Excellent color rendition, blackout and blind spot reduction technology that helps reduce shadowing effect of ET tube in upper airway
- Disposable Macintosh and hyperangulated blades in two sizes
- Disposable handle with textured surface for secure grip
- No need for x-ray; ProVu shows ET tube passage all the way down to the carina
- Maneuverable tip navigates any airway for rapid placement
- Soft tip reduces potential tissue trauma
- High resolution camera delivers complete visualization and includes anti-fog coating
- Intubation station feature enables user to instantly obtain optimum viewing position with articulating arm

PRO₂ Check Elite™

SALTER LABS

Oxygen Concentrator Indicators

- PRO2 Check Elite features multi-functional measurements
- PRO₂ Check model exclusively measures oxygen concentration
- Measure concentrator performance or spot check LOX systems
- Readily check vital parameters of oxygen concentrator performance
- Designed to simply and accurately measure performance without the need for repeated calibrations
- Microprocessor factory-set electronic calibration
- If calibration or verification is needed, it can be preformed onsite with no additional test equipment
- No fuel cell to replace *ever*, unlike typical instruments
- Comes complete with carrying case and 9v battery, pre-installed

Item	Description	QTY	$
PRO2ELITE-1	PRO₂ Check Elite with Carrying Case, Belt Clip, Shoulder Strap, 9v Battery, Connecting Tube	1	$469.95

Flex-Tip® Endotracheal Tubes

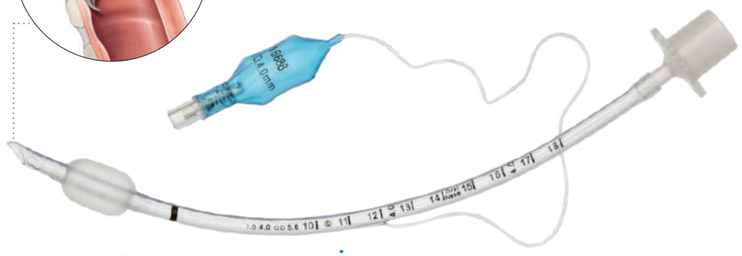

Tapered Distal Tip for Non-Traumatic Intubation

• LATEX FREE • • STERILE • • DISPOSABLE •

- Designed to facilitate rapid, non-traumatic intubation
- Unique, patented design has a flexible, curved, centered, tapered distal tip
- Tapered tip is designed to flex and slide gently along the airway through the larynx, down the trachea on its curved backside without catching on airway tissue

Tapered tip slides more gently along airway compared to traditional ET tubes

SALTER LABS

SEE THE DIFFERENCE • EXPERIENCE THE DIFFERENCE

SALTER LABS
FLEX-TIP ET TUBE

- NO GAP between tapered tip of ET tube and fiber bundle

STANDARD ET TUBE

- Gap between leading edge of ET tube and fiber bundle
- Gap can catch on airway anatomy as the tube is 'railroaded' downward

Gastro-Laryngeal Tube

Maintain Airway During GED Procedures

•LATEX FREE• ••REUSABLE•

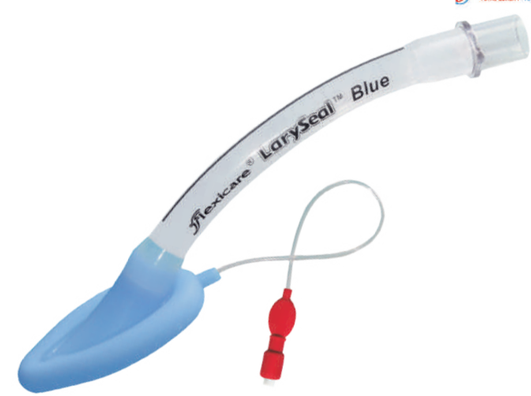

- Obtain and maintain control of airway potency during complex gastrointestinal endoscope procedures
- Suitable for adults under deep sedation or general anesthesia
- Can be used with either spontaneous breathing or assisted ventilation
- Autoclavable
- Coated to avoid friction and promote smoother placement
- Fits duodenscopes with max 13.8 mm O.D.
- Silicone

Item	Description	Qty	$
4-3290-04	Gastro-Laryngeal Tube	1	$289.95

LarySeal™ Blue LMA

Surface Finish Helps Secure Airway

•LATEX FREE• ••STERILE•• ••DISPOSABLE•

- Crush resistant
- Silicone matte surface finish reduces the risk of movement and cuff dislocation
- Thin-walled pilot balloon indicates the inflation of the cuff
- Color-coded pilot balloon feature promotes quick, accurate size selection

Audible Patil Intubation Guide

Magnifies Breath Sounds During Blind Intubation

• LATEX FREE •

- Lightweight device with a small whistle diaphragm
- 15 mm female attaches to ET tube connector
- Helps magnify breathing sounds during nasotracheal and orotracheal intubation

Item	Description	Qty	$
9-0014-30	Patil Intubation Audible Guide	1	$29.95

Patil Intubation Gauge

Measures Distance Between Thyroid Notch and Mandible

• LATEX FREE •

- Measures the distance between the thyroid notch and the lower border of the mandible in the midline with the patient positioned in full neck extension
- Difficult larynx visualization can be anticipated
- Made of chrome plated brass

Item	Description	Qty	$
9-0014-40	Patil Intubation Gauge	1	$40.95

GiO Pressure Gauge

Real Time Digital Display of Pressure Measured

- Displays in three pressure units: cm H_2O, mBar, kPa
- Displays peak pressure reading when Peak and Hold function is activated
- Backlight for easy reading in dim environment
- Analog bar display with colors to indicate different pressure ranges
- Auto power off preserves battery life
- Variety of gauge ranges available

Item	Description	Range	Qty	$
8-1000-01	GiO 1 Pressure Gauge	0-30 cm H_2O	1	$304.95
8-1000-02	GiO 2 Pressure Gauge	0-80 cm H_2O	1	$304.95

8-1000-05	GiO NIF Filtration Valve	–	30	$385.95
8-1000-06	Pressure Line + Transducer Replacement Kit	–	1	$105.95

COMES COMPLETE WITH

- 2 hydrophobic filters
- 2 disposable pressure lines with luer lock connectors
- 1 - 50 cm pressure line
- 2 elbow connectors
- 1 straight connector
- 2 lithium cell batteries

Endotest Cuff Monitor

Cuff Inflator with Manometer

- Used to inflate, deflate and monitor the pressure of high volume, low pressure cuffs
- Easy, one-hand use
- Pressure is easily seen on the clearly marked face of the pressure gauge
- Red switch designed to lodge when fully depressed, allowing cuff pressure to fall to zero

Item	Description	Qty	$
8-1127-00	Endotest Cuff Monitor	1	$370.95
8-1127-01	Extension Tubing 103.5 cm long	1	$15.95

8-5404-00

8-5407-00

Cuff Pressure Gauge

For High Volume, Low Pressure Cuffs

- Release valve and hook
- Vacuum valve
- Luer connection
- Color coded ranges for suitable for ET tube and LMA inflation

Item	Description	Qty	$
8-5404-00	Original Cuff Pressure Gauge	1	$186.95
8-5407-00	Universal Cuff Pressure Gauge	1	$186.95

SunMed

GreenLine® Siker Mirror American Profile Blade

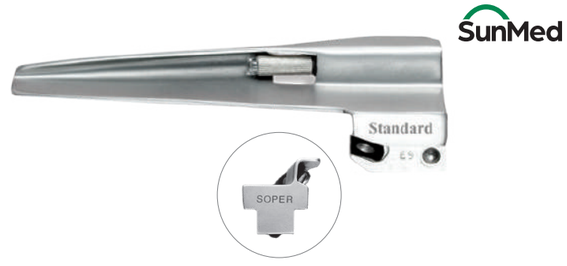

Frosted Lamp Provides Diffused Illumination without Shadows

• LATEX FREE • • REUSABLE •

- Ideal for use on patients with anatomical variations which make intubation with conventional blades difficult or impossible
- The basic portions of the blade make an angle of 135˚ with a mirror located at flange angle facing spatula for better visualization
- Distal portion is 3"
- Mirror inverts the reflected image – clinician should exercise caution until familiar with its use
- Curved stylet is recommended for use with the Siker blade
- Immersing blade in warm water bath for 10 minutes prior to use will help prevent mirror fogging
- Made of surgical stainless steel

Item	Description	Size	Qty	$
5-3075-04	Siker Mirror American Blade, Large Adult	4	1	**$69.95**

SunMed

GreenLine® Soper English Profile Blade

Clear Lamp Provides Brighter Illumination

• LATEX FREE • • REUSABLE •

- Broad flat blade makes it easier to restrict premature and newborn infant tongue movement
- Made of surgical stainless steel

Item	Description	Size	Qty	$
5-5080-01	Soper English Blade, Infant	1	1	**$50.95**

GreenLine® Blechman American Profile Blade

Effectively Lift Epiglottis in Supine Position

•LATEX FREE• •REUSABLE•

- Angled tip elevates the epiglottis in supine patient
- Tongue is swept to the left allowing the blade to tip upward for effective viewing from the right side
- Soft, matte finish virtually eliminates reflection and glare
- Made of surgical stainless steel
- Green System compatible

Item	Description	Size	Qty	$
5-5241-03	Blechman American Blade, Med. Adult	3	1	**$83.95**

GreenLine® Improved Vision American Profile Blades

Extended Channel for Better Visualization

•LATEX FREE• •REUSABLE•

5-5254-02

5-5254-04

- Channel extends from heel to mid-blade for improved visualization of the cords
- Channel design helps guide endotracheal tube insertion
- Soft, matte finish virtually eliminates reflection and glare
- Made of surgical stainless steel
- Green System compatible

Robertshaw Miller English Blade

Better Depth Judgment & Less Trauma with Binocular Vision

• LATEX FREE • • REUSABLE •

- Designed specifically for infants and children
- Spatula is gently curved overthe distal third and can indirectly lift the epiglottis similar to a Macintosh blade
- Clear lamp provides bright illumination
- Made of surgical stainless steel

5-5077-01

Item	Description	Size	Qty	$
5-5077-00	Robertshaw Miller English Blade, Newborn	0	1	$50.95
5-5077-01	Robertshaw Miller English Blade, Infant	1	1	$50.95

SunMed

5-5057-03

Wisconsin Miller American Blade

Frosted Lamp Provides Diffused Illumination, No Shadows

• LATEX FREE • • REUSABLE •

- Straight spatula design with flange that expands slightly toward distal portion of blade increases visual field to help prevent potential trauma
- Distal portion of blade is wider and formed slightly to right, making it well-adapted to lifting the epiglottis
- Made of surgical stainless steel

Item	Description	Size	Qty	$
5-5057-02	Wisconsin Miller American Blade, Child	2	1	**$25.95**

Snow Miller American Blade

Curves Back from Distal End for Convenient Visual Field

• LATEX FREE • • REUSABLE •

- Combined Miller spatula and Wis-Foregger flange design can reduce trauma during intubation, especially for use with a cuffed tube
- Frosted lamp provides diffused illumination without shadows
- Made of surgical stainless steel

Item	Description	Size	Qty	$
5-3069-03	Snow Miller American Blade, Med. Adult	3	1	**$32.95**

Sun-Flex™ Macintosh English Blades

Non-Pinching Flexible Tip

• LATEX FREE • • REUSABLE •

- English channel helps visualization of the epiglottis
- Designed to enable precise control to elevate the epiglottis
- Satin finish virtually eliminates reflection and glare
- Reflector lamp provides extra bright illumination
- Made of surgical stainless steel

Complete Intubation Kits

Pre-Packed, Ready-to-Go!

• LATEX FREE •

- Available with conventional laryngoscopes
- All components in original sterile packaging

Mac 1, 2, 3, 4

Miller 0, 1, 2, 3, 4

Not all items in kit shown.

KIT INCLUDES:

- 8 Color Coded Guedel Airways (size: 40-100 mm)
- 4 Nasopharyngeal Airways (sizes 20, 24, 28, 32 Fr)
- 2 Uncuffed ET Tubes (sizes 2.5, 4 mm)
- 8 Cuffed ET Tubes (sizes 5-10 mm)
- 1 ET Tube Introducer (Bougie) with Coudé tip
- 1 Adult Stylette
- 1 Adult Magill Forceps
- 1 Pediatric Magill Forceps
- 4 Packets of Sterile Lubricating Jelly
- 1 Syringe (10 mL)
- 1 Nylon Case
- 2 "AA" & "C" Batteries (if applicable)
- Replacement laryngoscope lamps (if applicable)

CONVENTIONAL LARYNGOSCOPE HANDLES & BLADES:

- 1 Penlite Laryngoscope Handle
- 1 Medium Laryngoscope Handle
- 5 Miller Laryngoscope Blades (sizes 0-4)
- 4 Macintosh Laryngoscope Blades (sizes 1-4)

WelchAllyn

Macintosh American & English Conventional Blades

Single-Piece Stainless Steel Blade

• LATEX FREE • • REUSABLE •

- Design incorporates a gentle, continuous curve from the tip to the prximal end
- Curve is compressed into the vallecula and the blade lifted, indirectly raising the epiglottis
- Reduced proximal blade height results in a lower profile that assists in intubating patients with limited oral access

Macintosh American Conventional Blades

Peripheral Nerve Stimulators

Qualitative Nerve Stimulation

• LATEX FREE • • REUSABLE •

SunStim™ Pro

LED Screen Displays Functionality

- Ergonomic, compact shape fits comfortably in hand
- Easy-to-Read illuminated digital screen displays DBS, Twitch, Tetanus, TOF, current intensity and battery life
- Clearly visible, finger-controlled front face buttons
- Side switch to increase and decrease level of stimulation
- Removable silicone wrap enhances grip, helps protect device

SunStim™ Plus *Best Seller!*

Enhanced Functionality

- Features two 60 milliamp burst simulation at 50 Hz, separated by 0.75 seconds
- Develops optimal output to ensure supramaximal stimulation: Output current is fully adjustable from 0-70 mA
- Features 50 and 100 Hz Tetanus, TOF and DBS

SunStim™

Affordable Nerve Stimulator

- Consistent voltage stimulator for monitoring neuromuscular block
- Evaluates muscle relaxant dosage during surgery and recovery

All three devices come ready to use! Includes: instruction manual, battery, ball electrodes, 6' leads with clips and a one year warranty.

Epidural Positioning Device

Safe & Comfortable Patient Positioning

- Increases efficiency in thoracic, lumbar and cervical placement by gently encouraging flexion while maintaining a solid, stable position
- Intuitive to use and easy to set up, clean and transport between rooms
- Convenient, disposable face and arm rest covers make for fast and sanitary changeovers between uses
- Fits a variety of body sizes and weight – holds up to 600 lbs
- Single foot pedal easily locks or unlocks all four casters

Addresses Common Safety Concerns:

- The nurse holding the patient may not physically be able to maintain the position needed or to hold the full weight of the patient
- Patient may be tense or attempt to move if they feel uncomfortable which can result in injury or improper placement
- Patient may experience vertigo or nausea causing them to lose position
- Allows clinical staff to be hands-free if needed to assist the anesthesioloist more readily

Item	Description	Qty	$
9-4400-01	Electric Epidural Positioning Device	1	**$10,421.95**
9-4420-02	Manual epidural Position Device	1	**$4,167.95**

Manual Epidural Positioning Device

180˚ Adjustable Face Rest
Tilts to attain and maintain proper cervical flexion

Adjustable Torso Support
Increase lumbar and thoracic flexion with simple adjustments while the chest support immobilizes back

6 Position Adjustable Arm Rest
Height adjustable from 32" - 43"
Allows patient to rest arms naturally and provides stability

Positive Locking Clamp
Quickly locks with one turn

7 Position Adjustable Foot Rest
Height adjustable from 10.5" - 19.5"
Accommodates wide range of body sizes

Double Wheel Casters
Securely lock and also allows for smooth transport

9-4400-05

Electric Epidural Positioning Device

180˚ Adjustable Face Rest
With repositionable pillow for use during cervical, lumbar and thoracic placement

Adjustable Torso Support
Increase lumbar and thoracic flexion with simple adjustments while the chest support immobilizes back

Electric Hand Held Control
Ergonomic and easy to use, controls both midsection and foot rest adjustments

Battery
Rechargeable battery, lasts up to 100 cycles

Adjustable Foot Rest
Adjusts to the required height with hand control to accommodate a wide range of patients

High Quality Casters
Low profile caster locks, conveniently tuck out of the way, easy to access for locking and releasing

CASTrGARD® for Anesthesia Machines

Move Equipment Without Wheel Obstructions

• LATEX FREE •

- Durable ring fits over casters to prevent wheel obstructions
- Safely pushes aside hoses, cables and cords
- Protects expensive hoses, cables and cords from being tangled or run over by heavy equipment
- One piece design is quick and simple to install
- Constructed of high impact polypropylene

INTERNATIONAL MEDICAL DEVELOPMENT

The Gertie Marx pencil point spinal anesthesia needle was specially designed to deliver a faster CSF flow to patients undergoing spinal anesthesia than other leading needles currently being utilized

Gertie Marx® Anesthesia Needles

Patented, Pencil Point Tip for Superb Performance

•STERILE• •DISPOSABLE•

- Improved delivery system for regional anesthesia
- Features raised side port indicators, enabling detection of side port at all times
- 360˚ Rotating stylet cap can be inserted in any position; alignment not necessary and saves time when repeated withdraw and reinsertion is required
- Magnified window on crystal clear hub; earlier recognition of CSF return
- Unique stylet cap with raised lines provides secure grip, even with gloves
- Only patented tip in the USA; very distinct "pop" when dura is punctured
- Available in wide variety of sizes – smaller sizes for pediatric applications, larger sizes for obese and morbidly obese patients; reduces the number of failed blocks due to insufficient length for the CSF technique

ViaValve® Safety IV Catheters with Blood Control

smiths medical

Help Reduce Risk of Blood Exposure & Contamination

•LATEX FREE• •STERILE• •DISPOSABLE•

- Unique valve inside the catheter hub impedes blood flow from the patient's vein upon initial venipuncture
- Once inserted, the catheter is activated by attaching the luer fitting of an infusion line which opens the valve to allow unrestricted flow
- Guard surrounds the retracted introducer needle for safe handling and disposal, thus preventing accidental needle sticks
- Ocrilon polyurethane catheter softens and becomes more pliable, allowing longer in-dwell
- Ribbed hub design facilitates secure catheterization

Item	Description	Size	Flow Rate	Qty	$

Neonatal Bubbler

H_2O CPAP for Infants <10 kg

• LATEX FREE •

- Proven method of delivering 0-10 cm H_2O CPAP for infants and neonates <10 kg
- For use with spontaneously breathing patients
- Designed to allow airway pressure to be set without the cumbersome steps normally associated with other bubble CPAP devices
- Closed system minimizes incidence of atmospheric fluid contamination
- Rotating and locking CPAP dial reduces risk of inadvertent setting changes
- Able to view fluid levels without disrupting therapy

Item	Description	Qty	$
3-0011-02	Neonatal Bubbler	24	$556.95

NebuTech® Nebulizer

Exceptional Performance, Versatility and Efficiency

• LATEX FREE •

- Delivers front-loaded bolus dosing during critical first 1/3 of each breath
- Provides drug deposition deep into the lungs
- High quality aerosol – 80% of particles in the respirable range (<5 microns)
- Improved patient outcomes translate into financial benefits
- Quick yet effective treatment – 50% shorter treatment times than AeroEclipse II
- 82% of treatments completed in less than 3 minutes
- 45° angle for maximizing patient comfort and treatment compliance
- Patient-friendly accessories provide flexible and improved respiratory treatment
- Filter provides RT protection from exhaled medications
- Spans the full continuum of patient care: pediatrics through elderly

Item	Description	Qty	$

safeT™

SafeT T-Piece Resuscitator

Effectively Deliver Consistent PIP and PEEP Pressures

•LATEX FREE• ••DISPOSABLE•

- Pre-set PIP and PEEP prior to use
- Allows clinician to deliver consistent PIP and PEEP pressures
- Consistent PIP and PEEP ensures greater safety when ventilating babies' fragile lungs, particularly in an emergency situation
- Integrated pressure manometer provides clear visualization of ventilatory pressure ranges
- Pressure relief valve helps prevent over-pressurization of lungs
- Able to deliver CPAP
- Includes a cushioned face mask for proper sealing during mask ventilation
- Easy to read controller and manometer makes set up simple and quick
- Universal red Fits-All O2 tubing connector allows immediate visualization of proper oxygen connection
- Pop off option available

Corrugated Breathing Circuits

Pediatric & Adult Expandable Tubing Plus Bags

• DISPOSABLE •

- Secure connections are welded together to prevent leakage and maintain connections
- Tubing made of durable yet flexible PVC for excellent drapability
- Secure hand grip enables easy removal from the machine
- Tethered gas sampling ports are attached to prevent loss
- Soft, tactile breathing bag provides excellent feel
- Soft, cushion face mask provides superior seal and patient comfort
- Gas sampling elbow

Item	Description	Length	Qty	$
3-8026-00	Pediatric Corrugated Breathing Circuit, 1.0 L Latex Free Breathing Bag, Gas Sampling Elbow, Mini B/V Filter	48"	20	$98.95

3-8018-43	Adult Single Limb Breathing Circuit, 3.0 L Latex Free Breathing Bag, Gas Sampling Elbow, B/V Filter	72"	20	$273.95

Available in a variety of lengths and bag volumes along with sampling elbows

Adult Circuits

Pediatric Circuits

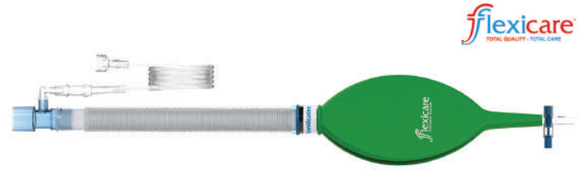

Jackson Rees Non-Rebreathing Circuit

Designed to Resist Occlusion

• LATEX FREE • • DISPOSABLE •

- Low profile elbow at the patient interface
- 15mm female connection for use with standard ET tubes, LMAs
- Oxygen tube designed to resist occlusion
- Standard oxygen connector allows for direct fitting to gas source
- Expired gases leave the circuit via a clear corrugated tube, connected to an open-tail reservoir bag

Item	Description	Qty	$
3-8021-92	Breathing Circuit, 0.5 L Reservoir Bag, Bacterial Bleed Valve	20	$206.95
3-8021-93	Breathing Circuit, 1.0 L Reservoir Bag, Bacterial Bleed Valve	20	$206.95
3-8021-97	Breathing Circuit, 1.0 L Reservoir Bag, Bacterial Bleed Valve	20	$206.95

Racine Universal Connector

Provides a Firm, Tight Seal

•LATEX FREE• ••REUSABLE•

- Allows movement of breathing circuit at patient end
- Eliminates the need for connectors of varying types and sizes
- Patented diaphragm allows quick and easy tube insertion which provides a firm, tight seal
- Aluminum and silicone construction
- Fits 7 mm to 10.5 mm tubes

Item	Description	Qty	$
3-3013-03	4" Racine Universal Connector	1	**$27.95**

Transport Circuit

MR Conditional, Ready-to-Use

•LATEX FREE• ••DISPOSABLE•

- Complete, lightweight, ready-to-use, non-metallic MR conditional transport circuit in a single small package
- Compatible with some portable transport ventilators that have a passive exhalation valve
- Features a minimal deadspace, non-rebreathing valve with a swivel patient connector, adjustable PEEP valve and a proximal monitoring port that can be used for airway pressure
- Circuit expands up to 8 feet to allow convenient ventilator positioning away from the patient or outside of the MRI magnet
- Single-piece patient valve with integral adjustable PEEP capability
- Monitoring port with tethered cap allows connection of external pressure gauge or sidestream capnograph for expanded monitoring capability

Item	Description	Size	Qty	$
9317	96" Circuit, Patient Valve, PEEP	Adult	10	**$190.95**
9318	96" Circuit, Patient Valve, PEEP, CO_2 Easy	Adult	10	**$235.95**

Westmed

Adult Anesthesia Circuit

Expandable, Dual Limb – Many Configurations!

•LATEX FREE• ••DISPOSABLE•

- High quality double limb tubing with exceptional flexibility
- Wide variety of accessory combinations; more available -just call!
- ISO-standard connections
- Plain or ported wyes
- HMEs, HMEFs, bacterial/viral filters and HEPA filter options
- Standard and swivel gas sampling ports, lines and filters
- Anesthesia face mask options
- ECG leads

FLOCAP CO_2 Indicator & $EtCO_2$ Detector

Reduce Breath Stacking

•LATEX FREE• •DISPOSABLE•

- $EtCO_2$ and flow indication device designed for visualization of exhaled CO_2 and expiratory flow
- Designed to help reduce breath stracking, air trapping and over-distention during resuscitation
- High definition color changing material displays CO_2 percentage
- Foam will not dry out unlike litmus paper used in many indicators
- Florescent orange spinner is easy to see in low light
- For patients > 15 kg (33 lb.)

Item	Description	Qty	$
R500P21	FLOCAP CO_2 Indicator & $EtCO_2$ Detector	24	**$250.95**

Thermovent® 600 / 1200 HME

Passive Humidification

• LATEX FREE • • DISPOSABLE •

- Can be used in anesthesia or ICU and for patients with adult tidal volume
- Low resistance to flow
- Small dead space
- Full compatibility with breathing systems for masks

Item	Description	Qty	$
1-5800-20	Thermovent® 1200 HME	50	**$76.95**

Thermovent® T 1000 HME

Suitable for Tracheostomy Patients

• LATEX FREE • • DISPOSABLE •

- Recommended for spontaneously breathing patients with a tracheostomy
- 25 mg H2O/L at 34 degrees C for 1000 mL tidal volume
- 2.0 cm H2O at 60 L/min
- Corrugated paper media
- 5 g weight

Item	Description	Qty	$

Thermovent® HME/HEPA

Provides Excellent Heat, Filtration & Passive Humidification

• LATEX FREE • • DISPOSABLE •

- Outstanding filtration capabilities and highly hydrophobic (up to 150 cm H_2O)
- For use with mechanical ventilators, anesthesia machines and open flow systems
- Provide B/V efficiency ratings up to 99.999%
- ISO Standard tapered ends assure a consistent leak-free seal
- Hydrophobic membrane

Item	Description	Qty	$
1-0028-95	Thermovent® HME/HEPA	50	**$217.95**

smiths medical

1-0028-37

1-0028-13

HME Straight w/ Gas Port

Efficient Heat & Moisture Recovery

• LATEX FREE • • DISPOSABLE •

- Exhibits low resistance to flow and high moisture output helping to minimize the loss of heat and moisture in ventilated or spontaneously breathing patients
- ISO standard tapered ends assure consistent leak-free seal
- Available with flex tube for easier connection to endotracheal tube

Item	Description	Qty	$
1-0028-13	90-1500 mL HME w/ Gas Port, Straight	50	**$104.95**
1-0028-37	6.5" Flex Tube (15 mm ID x 22 mm ID)	50	**$102.95**

Heat Moisture Exchangers

Available With and Without Filtration Media

ventlab

• LATEX FREE • • DISPOSABLE •

- Help reduce the transmission of microbes and other particulate matter in the breathing system
- Media filters up to 99.99% of expiratory bacterial/viral content
- Designed to reduce drag on the breathing system while ensuring patient comfort
- Compatible with leading breathing systems
- Individually packaged 50 EA/CS

HME with Filter Media

HME without Filtration

Jet Ventilator & Accessories

MRI Safe Version Available

• LATEX FREE • • REUSABLE •

- Ventilation system for rigid wall bronchoscopy and laryngeal microsurgery
- 5' Long pressure tubing
- Features O_2 DISS fitting, flow control valve, thumb control valve, pressure gauge
- 20" Clear plastic tubing with luer fitting for adapter attachments
- Features luer connection at the proximal end for attachment to jet ventilator and a round distal end
- The soft malleable tube can be used in laser surgery

Manual Jet Ventilator

Effectively Use with Needle Cricothyroidotomy

• LATEX FREE • • REUSABLE •

- For emergency ventilation in adults and children
- Can be used in conjunction with needle cricothyroidotomy
- Comes complete with:
  - *-Jet ventilator*
  - *-Regulator*
  - *-6' High pressure hose*
  - *-4' Small bore tubing*
- Regulator gauge reads 0-60 psi
- Spring valve provides flow when pressed and stops flow when released
- Runs directly from 50 psi source

Item	Description	Qty	$
9-1830-01	Jet Ventilator w/ Regulator, 6' High Pressure Hose, 4' Small Bore Tubing	1	**$405.95**
9-0004-05	Replacement Regulator	1	**$200.95**
9-0004-14	4' Small Bore Tubing	1	**$35.95**
9-0004-16	6' HIgh Pressure Hose	1	**$42.95**

Compact Click-Style Oxygen Regulator

Pediatric, Hospital & Emergency Applications

• LATEX FREE • • REUSABLE •

- Extended aluminum body with brass inlet chamber
- Tested to CGA standards which include ignition testing
- Dial-in flow control
- Maximum inlet pressure 3000 psi
- Sintered filter for additional safety and to extend regulator life
- Internal reseating relief valve protects against over pressurization
- 1-1/2" diameter gauge
- Hose barb outlet or DISS 1240 outlet for use with a humidifier bottle
- 2-year limited warranty

Oxygen Regulator

Smallest Gauge Regulator

PRECISION MEDICAL

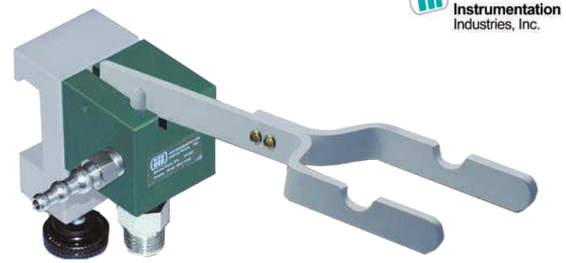

- Compact and lightweight: 4.25" long, 11.5 oz
- Contents gauge on the front, flow gauge on the top
- Flow adjustment knob is easily accessible
- Large easy-to-read numbers on the flow gauge provide better visibility of the flow setting
- Unique uni-body design makes it a great alternative for those who prefer a gauge-type regulator over a dial regulator
- Safe to use with built-in pressure relief valve and protected contents gauge
- Low-force rubber yoke seal provides an effective tank-to-reg seal
- Accurate readings
- Yoke or nut style options in three flow rates: 1-5 lpm, 1-8 lpm and 2-15 lpm

Item	Description	Qty	$
8-8000-01	O_2 Regulator, Yoke Styler, 0-15 lpm	1	$79.95
8-8000-04	O_2 Regulator, Nut Style, 0-8 lpm	1	$80.95
8-8000-02	O_2 Regulator, YokeStyle, 0-8 lpm	1	$82.95
8-8000-03	O_2 Regulator, Nut Style, 0-15 lpm	1	$80.95

Oxygen Flow Valve

Instant Oxygen Delivery

Instrumentation Industries, Inc.

- Provides immediate oxygen flow when resuscitator bag is lifted from lever
- Adult, pediatric/neonatal flowmeter mount
- For bags > 3 oz (90g)
- On/off action is controlled by lifting/replacing resuscitator bag on lever
- Excellent for all ICU environments, ED, trauma units
- Forked lever arm does not require bag hanger
- Constructed of sturdy anodized aluminum

SunMed

RescuMed Manual Resuscitators

Packaged Specifically for First Responders

• LATEX FREE • • DISPOSABLE •

- Equipped standard with bacterial/viral filter to help prevent the spread of potentially infectious expiration content, protecting clinicians, other patients and visitors from cross contamination
- Bacterial/viral filter 99.99% effective at filtering COVID-19, SARS, Ebola, Flu
- Integrated color-coded pressure manometer effectively promotes proper pressure delivery (<20 cm H_2O); the tri-color fields alert to the risk level of delivered pressure
- Pre-attached bacterial/viral filter and mask means no assembly required; grab and go!
- Features appropriately-sized face mask
- B/V filter accepts 19 mm or 30 mm PEEP valves

Email Us	info@MainlineMedical.com
Order Online	www.MainlineMedical.com

Payment Options:
Credit Cards accepted: Visa, MasterCard, American Express, and Discover.

If you would like to set up an account, call us. Doctors, Nurses, Therapists and other Healthcare Professionals receive the same discounted prices given to Hospitals and Surgery Centers.

Terms and Conditions:
If you receive items that do not meet your expectations, you may return them if in salable condition to Mainline Medical for credit or replacement. Please contact our Customer Care Department at 1-800-366-2084 for a return authorization.

Full credit will be given for items returned in salable condition within 30 days. Special orders and sterile items are not returnable. Restocking fees may apply. Freight charges are not refundable.

We make every effort maintain the prices printed in this catalog and to provide you with the most up-to-date and accurate information. However, occasionally we receive price increases from our suppliers. Therefore prices are subject to change without notice. Please refer to our website for the most current pricing.
